

## Turanga Curly Wurly EMA 572

Curly is one of the best young sires we have bred and we are excited to see what this bull will do. With 50 calves on the ground across two Studs, Curly is yet to prove himself with his first lot of daughters to calve in March however his calves have been standouts. For two joining seasons Curly was transferred to Toowoomba to the Wilanstie Red Poll Stud where his calves are thriving. Being a son of Amos, he carries exceptional structure, temperament and fine skin and hair type. His depth of heel and leg structure is excellent with perfect teat placement. Despite the sheer capacity and volume that this bull carries he is able to maintain his condition as an easy doing type. Curly's mother was a real 'hard working' type of cow that oozed maternal strength. She was a cow that would typically weigh 630kg but during a tough period of time when she was rearing Curly she pulled herself down to 512kg and weaned the heaviest calf at 330kg at six months old. This meant that in six months she had weaned off 64% of her body weight. He has a scrotal circumference of 43cm and he has tested negative to copies of the myostatin gene.

Curley at two year old

Curley's dam: LOH Z291-3

Curly daughter: Turanga Made Of Honour @ 20 months

Curly daughter: Turanga Madeleine @ 20 months

Curly daughter: Turanga Maze Runner @ 19 months

Curly daughter: Turanga Such A Vibe @ 18 months

Wilanstie Curly sons at 5 months
